### Blue Foliage Paper

1. Turn the Blue Foliage paper over and orient the Square Print up so the maroon corners are on left in top and bottom corners).
2. Use a pencil to mark each corner of the section of 6 complete horizontal blocks and 11 complete vertical blocks shown in first photo.
3. When placing the paper on the 12" Trimmer, align the white block border with the left edge of the gray cutting mat. Locate both pencil marks and cut only between them. Rotate the paper and repeat cutting between the pencil marks, always lining up the white block border with the left of the gray trimming mat. This section will be used in Layout 5. (If using a substitute paper, the section is approx. 5x8-1/2" cut 2" from the left edge and 1-3/4" down from the top.)

### Woodgrain Paper

(Shown with vertical woodgrain)

1. Adhere the 5-1/2x9" Woodgrain pieces centered over the hole in the Blue Foliage base papers (1-3/4" from left edge and 1-1/2" down from the top).
2. Adhere the 5-1/2x1/2" strips along the top and bottom of Woodgrain pieces, showing the reverse Light Brown Print.
3. Cut off six full designs (~5-5/8") from the Infinity Border Stickers and adhere to the seams of Woodgrain/Light Brown Print.
4. Adhere Foliage Laser Borders along the edges.
5. Place Variety Mats as desired. The Blue Journal Tabs mat can be used for journaling or as a photo mat.

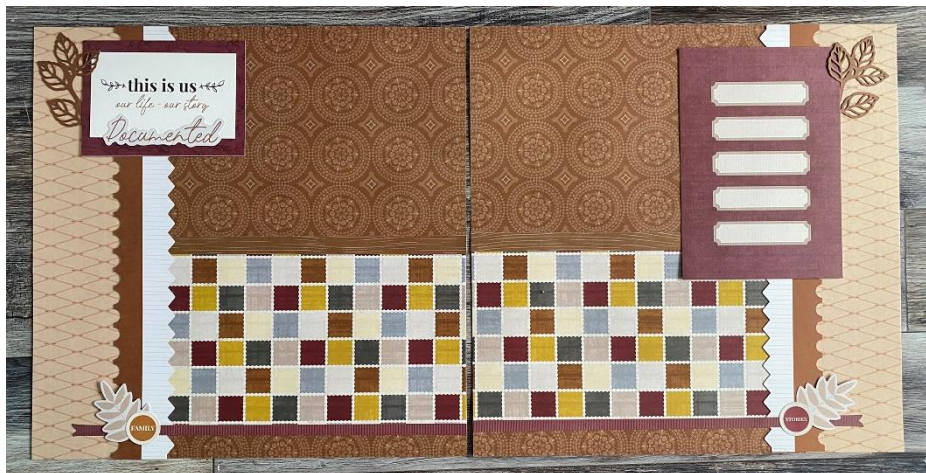

*Dimensions for photos mats are shown but I recommend trimming your photos to those sizes and not using cardstock mats. The design and paper tones will provide a matted effect to your photos with the above placement.*
