It can be used with any paper pack and embellishments (shown with Advisor-Exclusive Homebody Paper Pack and Mini Pack Embellishments) and can be modified by arranging the elements in different ways. ## INSTRUCTIONS

- Decide which papers you want to use as the base pages and which one you want to cut. Note that you will see both sides of the paper that you choose to cut.
- Determine which way you will cut through the patterned paper. If the pattern has a specific directionality you may want to turn it before you cut. Think of how the pieces will look once you cut them and how they will look if you add them to the base pages. For example, the paper in this Project Recipe™ looked like a rug and had a 2" border design at the top and bottom of the paper. Instead of cutting both pieces from one end of the paper, it was cut so that each of the 2" border designs could be used.
- Place the paper to be cut on the 12-inch Trimmer with the edge aligned with the 2" mark at the top of the trimmer. Hold the paper in place with one hand and press down on the blade housing with the other hand. Pull the blade housing down the length of the track and release the pressure on the blade when you come to the end of the paper.
- Set aside the first 12" x 2" strip that you cut. Repeat the process to cut one more 12" x 2" strip. You will have a total of two 12" x 2" strips and one 12" x 8" rectangle.
- Flip over the 12" x 8" rectangle to show the pattern on the opposite side and place across the middle of the base page on the left-hand side of the layout. Adhere with Tape Runner.
- Place the two 12" x 2" strips across the top and bottom edges of the base page on the right-hand side of the layout. Adhere with Tape Runner.
- Choose your photos and arrange as shown. Crop each photo to the size indicated with the Personal Trimmer. Adhere photos onto layout.
