## INSTRUCTIONS

- Decide which papers you want to use as the base pages and which one you want to cut. Note that you will see both sides of the paper that you choose to cut.
- Determine which way you will cut through the patterned paper. If the pattern has a specific directionality, you may want to turn it before you cut. Think of how the pieces will look once you cut them and how they will look if you add them to the base pages.
- Place the paper to be cut on the 12-inch Trimmer with the edge aligned with the 1" mark at the top of the trimmer. Hold the paper in place with one hand and press down on the blade housing with the other hand. Pull the blade housing down the length of the track and release the pressure on the blade when you come to the end of the paper.
- Cut pieces A, B, C and D from one side of the paper, then turn the remaining section of paper and make the final cut at 6" to cut pieces E and F.
- Place the 1" x 12" strips across both pages 1/2" from the top and bottom edges. Center the 8" x 6" rectangles horizontally on the base pages along the edges. Adhere with the Tape Runner.
- Choose your photos and crop each to the size indicated on the sketch with the Personal Trimmer. Adhere the photos onto the layout.
- Journal as desired. Apply embellishments using Foam Squares to add dimension.
